

# Make An Impression

4750L Architectural Linear Floodlight

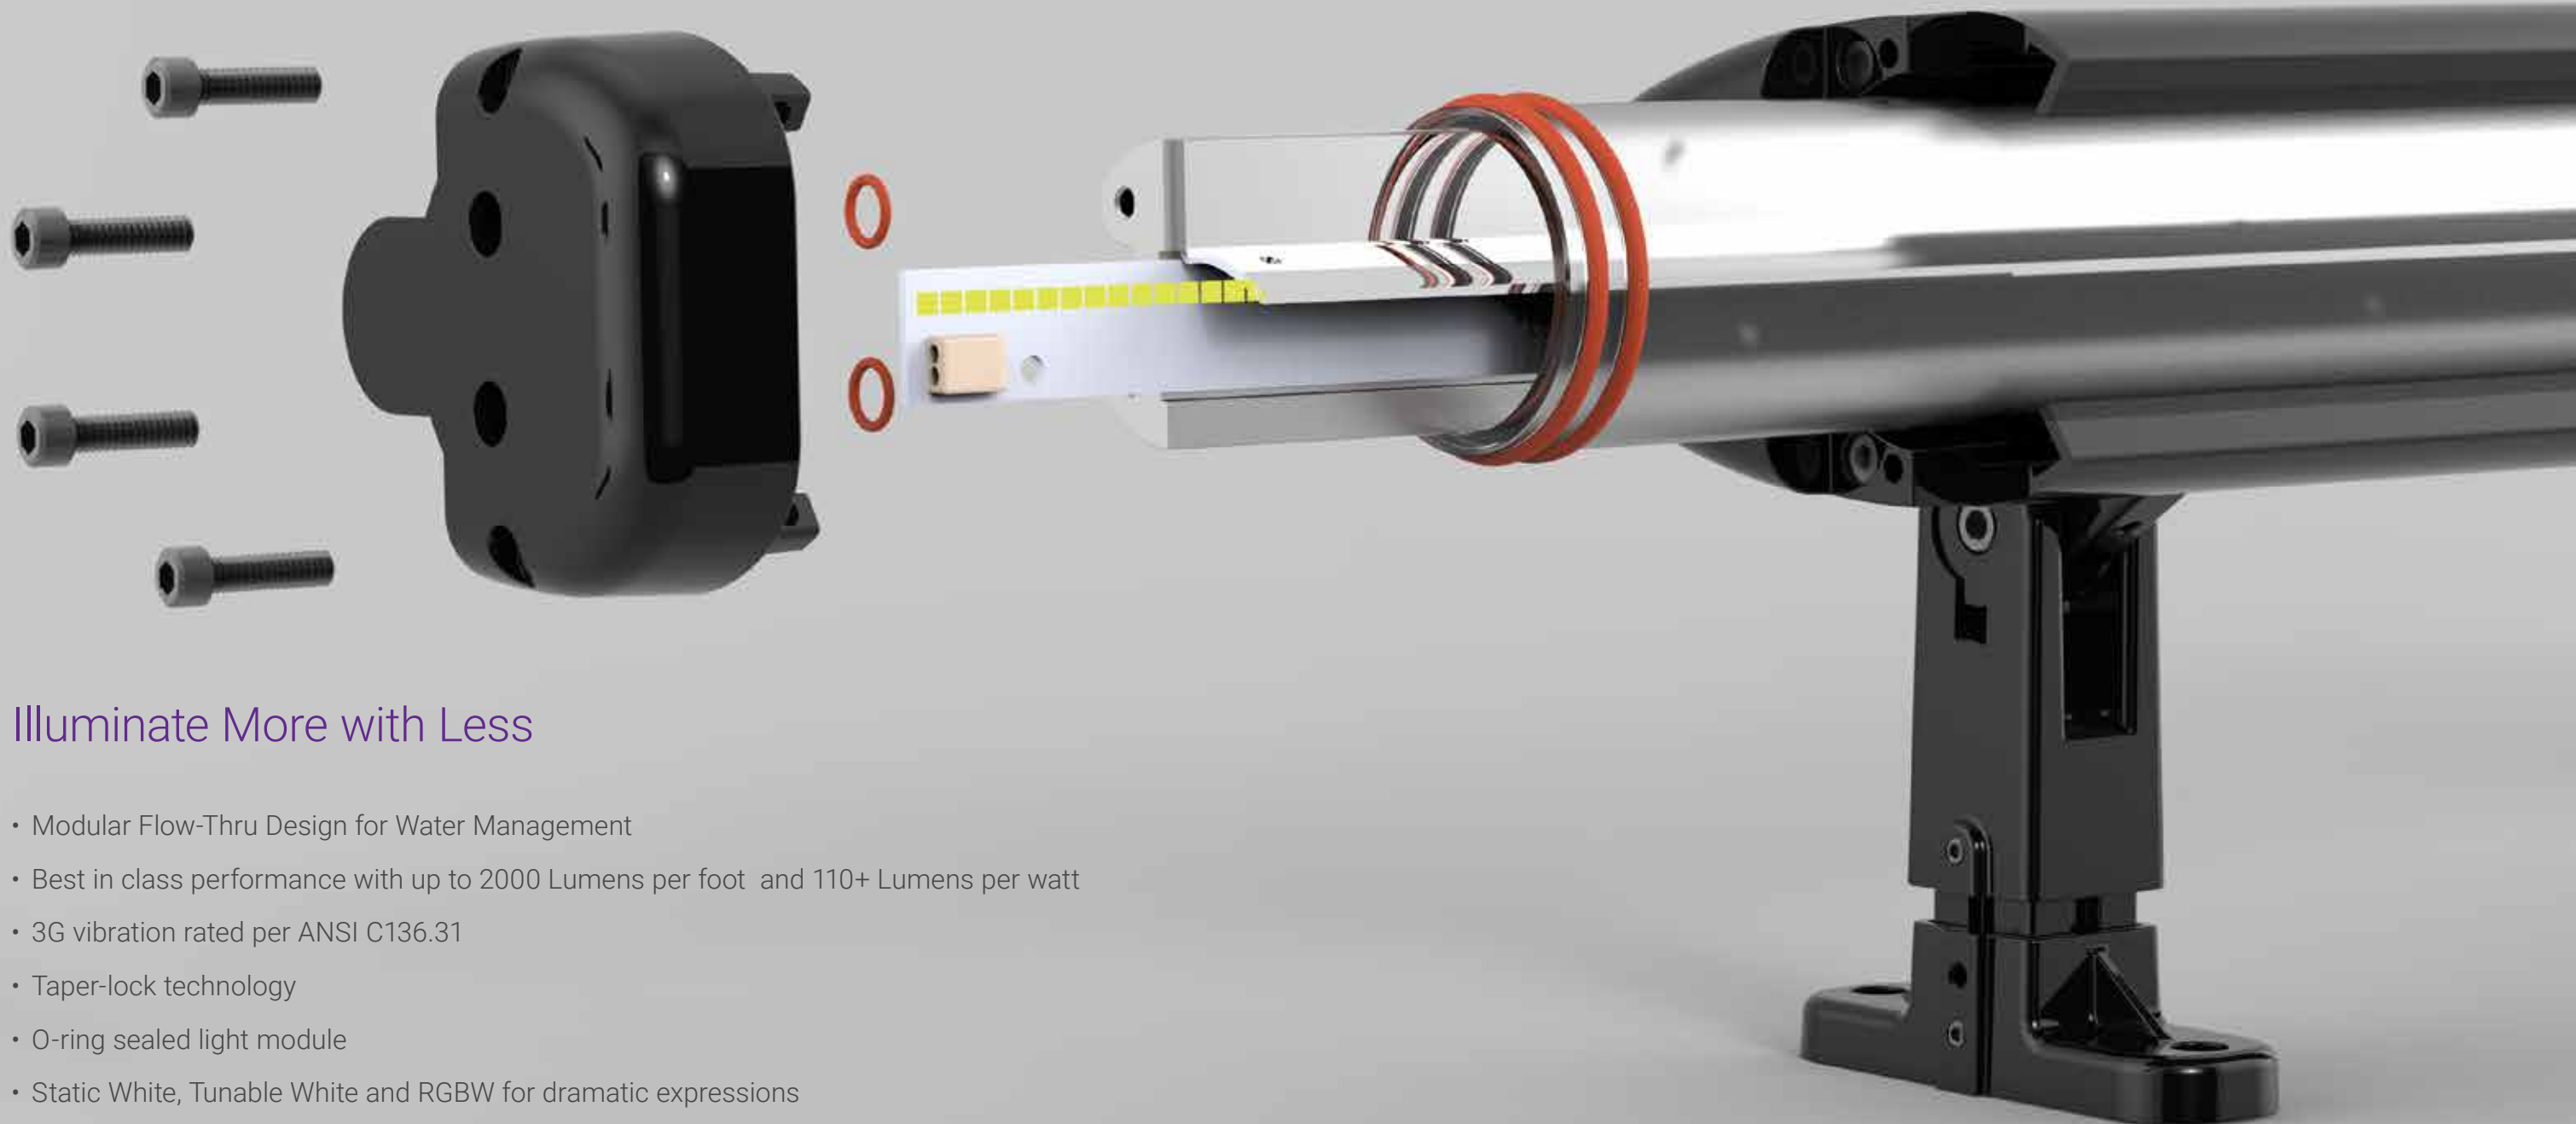

## Create Colorful Expressions of Light

From dramatic touches of light to accent lighting of an exterior facade, the 4750L linear flood light offers high-performance and even illumination. 4750L transforms outdoor spaces with exciting, dynamic features once reserved for niche applications. It is the architectural linear flood light for challenging locations!

## Illuminate More with Less

- Modular Flow-Thru Design for Water Management
- Best in class performance with up to 2000 Lumens per foot and 110+ Lumens per watt
- 3G vibration rated per ANSI C136.31
- Taper-lock technology
- O-ring sealed light module
- Static White, Tunable White and RGBW for dramatic expressions
- :0-10V and reverse phase with dim-to-dark
- DALI & DMX options
- DLC Qualified

Bay St. Louis Bridge  
Product: 4750L Static White

## Make An Impression

With its high-tech look, the 4750L Integral Junction Box offers a discreet integral j-box for locations that need to impress. Installation simplified, 4750L INJB is a high-performance linear luminaire with consistent illumination designed to create bold expressions of light.

## Line of light

The 4750LCR fixture offers easy connection ports and jumper cables, creating an uninterrupted line of light. It provides a uniform light distribution over the surface without lateral light spill for superior wall wash and grazing applications.
