Specifications

L:	4" 102 mm
W:	4" 102 mm
H:	6" 152 mm

DESCRIPTION

NEMA 3R raintight enclosure, 6"H x 4"W x 4"D. This versatile enclosure is ideal for mounting above grade when it is impossible to recess one in the ground. The box is a small compact unit designed to hide behind trees, shrubs, or foliage for remote supply to 12 volt systems. Transformer is compatible with LED, halogen and incandescent 12-volt sources. Transformer is electronic non-dimmable.
